

ADDENDUM NO. 2

DATE: Thursday, July 28, 2016
ITB: **No. 17-07/EA Industrial and Calibration Gases**
DATED: July 12, 2016
BID DUE: **Thursday, August 4, 2016 @ 2:00 p.m. ET**
BID OPENING: **Thursday, August 4, 2016 @ 2:00 p.m. ET**
SUBJECT: **Questions and Answers**

Ladies/Gentlemen:

Question 1: How will the rental be tabulated on the extended column?

Answer: The companies need to provide cost totals for Spec Gases (page 15 of 20) separate from Industrial Gases (page 14 of 20) for the year.

Question 2: There is no provision for cylinder rental for the EPA protocol portion of the bid, *Answer: Can this be added? Actually, on page 15 of 20 it stated that the Hampton/NASA Steam Plant needs 12 bottles of each "cal" gas and 3 bottles of each high concentration product annually; those bottles need to be rented.*

Question 3: There is not an estimated amount of cylinder rental, delivery fee, and hazmat fees. Can this also be included so that we may complete the extended cost and totals?

Answer: Compute rentals of 45 bottles per year, deliveries of 3 bottles per month plus every fourth month 3 of the high concentration cylinders, and HAZMAT fees for those 12 deliveries a year (for the specialty gases). The industrial gases can be computed similarly; O2=35/year translates to just under 3 per month. Acetylene=25/year translates to just over 2 per month.

Question 4: I had a question regarding ITB#: 17-07/EA, the EPA gases on page 15. Do you know what size aluminum cylinders you will be requiring?

Answer: The size is 150 cubic feet aluminum cylinders.

Bidders must take due notice and be governed accordingly. This addendum must be acknowledged as indicated in the Invitation to Bid or your Bid may not be considered.

All other terms and conditions remain the same.

For the City of Hampton,

Erika Allen
